08 Yaesu FT-70D Dual Band VHF/UHF 140-174MHz/400-470MHz 5W Handheld Transceiver

Commercial Grade, C4FM/F Dual Band Digital Transceiver

Both conventional FM operation, and the advanced C4FM digital modulation are available on the FT-70D. C4FM digital modulation delivers exceptional audio and long-range communication

Advanced C4FM Digital Communication

 **C4FM provides Excellent Audio Quality and Reliable Communication**

C4FM modulation has better BER (Bit Error Rate) characteristics when compared to other Digital modulation systems, and guarantees reliable long distance communication. C4FM digital is the standard method used by professional radio devices. The YAESU C4FM digital clear voice technology uses a 12.5 kHz bandwidth
